### ASKHAM BRYAN PARISH COUNCIL - RISK ASSESSMENT SCHEDULE

#### **Definition of Risk Management**

Risk is the threat that an event or action will adversely affect an organisation's ability to achieve its objectives and to successfully execute its strategies. Risk management is the process by which risks are identified, evaluated and controlled. It is a key element of the framework of governance together with community focus, structures and processes, standards of conduct and service delivery arrangements.

This document has been produced to enable Askham Bryan Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. The Council is aware that although some risks can never be eliminated fully, it has in place a strategy that provides a structured, systematic and focuses approach o managing risk, which:

- Identifies the subject
- Identifies what the risk may be
- Identifies the level of risk
- Evaluates the management and control of the risk and records findings
- Reviews, assesses and revises procedures if required

| Subject                | Risk(s) identified  | H/M/L | Management/Control of Risk  | Review/Assess/Revise                        |
|------------------------|---|-------|---|---|
